

PIB 155

Product Description:

PIB 155 is a high molecular polyisobutylene, a synthetic rubber which is used as an additive in lubricants for reducing oil mist generation and for detergent properties in fuels.

Applications:

PIB 155 serves as an additive for

- Thickening agent
- Fouling resistance
- Reducing particulate emissions
- Detergent (part of detergent additive packages)
- Resistance to deposit build-up
- Resistance to engine knock

And also

- Increase viscoelasticity crude oil
- Oil mist generation reduction

| Quality Specifications* | | PIB 155 |
|--------------------------------|---------|---------------------|
| Color | | White to light grey |
| Gram molecular weight | | 14-17 |
| Ash Content | regular | 0,3 |
| | premium | 0,04 |
| Weight loss by draining | regular | 0,8 |
| | premium | 0,7 |
